Food Grade UFO LED High Bays

UFO high bay led light fixtures are IP69K and NSF Certified. It is suitable for industrial, retail, and commercial interiors. High-protection rating of luminaires allows to clean with high pressure up to 100 bar and 80 degrees C hot water, and a variety of cleaning agents, alongside good chemical resistance.

DESCRIPTION

UFO LED High Bay Light features high lumen efficacy of 160~210 LPW for any application requiring maximum performance and minimum maintenance. The IP69K-rated provides protection against ingress of dust and high temperature, high pressure water to make LED light virtually impenetrable to contaminants. NSF certified products have therefore passed a stringent set of evaluations to ensure food safety requirements and standards are met for food processing warehouse, plant lighting, supermarket, mail and other lighting applications.
